

Caldwell House, Uplawmoor FEEDBACK FORM

**Thank you for attending this online consultation form about the emerging proposals at Caldwell House.
Please complete this feedback form, your views and opinions matter to us.**

This public event only presents information about the reasons to restore Caldwell House; Keeper's House; and the surrounding estate. It explains the concept of a retirement village and clarifies how it will impact on local services in neighbouring communities.

It highlights why and how the enabling development funds the restoration costs which are greater than the income from the sale of the restored buildings. It lists the surveys and analysis which is ongoing to finalise the proposal and identifies the possible areas for development in terms of their sensitivity and sequence of development.

The Conservation Plan for Caldwell House and the Masterplan Report was available to review along with the detailed design proposals for the various buildings to be built.

2. As set out in the Conservation Plan, Caldwell House is an important building with cultural heritage significance. To conserve Caldwell House and the Keeper's House, enabling development is required. Do you consider conserving Caldwell House is in the public interest and that the re-use of these buildings as proposed is an appropriate permanent use?
